Orion Footprint

Taffeta nylon, 1500 mm water column, covers tent and vestibule.

Weight: 12.3 oz / 350 g.

ORION

Expedition grade shelter.

- a> Quick and easy to pitch thanks to color coded poles that glide into matched, continuous sleeves and easy to use adjustable tension pockets.
- b> Easy handling day or night, zippers have color coded, reflective and glow-in-the-dark pulls that can be easily operated with one hand.
- c> Both canopy doors are large enough to allow two campers to sit side by side.
- d> Seamless bathtub floor design assures waterproof performance. The fabric water column is rated at 14+ PSI (10,000 mm).
- e> Ventilation hoods protect both doors.
- f> Canopy can be used alone, simply by detaching its ring and toggle system.
- g> Functional layout: Two large vestibules and entrances offer storage spaces that are accessed easily, even from within a sleeping bag. The canopy height is generous enough to sit out days of foul weather.

> Perfect

aerodynamics: with internal poles sleeves concealed beneath the rainfly. Orion stays taut, repels wind and prevents snow buildup. Numerous guyline loops on the pole sleeves keep Orion stable in any condition.

> Condensation is kept

to a minimum with opposed doors, windows and vents that offer incredible airflow through direct venting and a chimney draft effect. The suspended canopy design ensures ample space between the fly and canopy.

> Freestanding Orion

itches without stakes and is easily moved to any suitable spot. To clean, just lift overhead and shake out.
