#### Packed size:

16x5" / 40x13 cm

#### Setup time:

2 minutes

#### Color:

 Green

#### Southern Cross Footprint

Taffeta nylon, 1500 mm water column, covers tent and vestibule.  
Weight: 9.9 oz / 280 g.

Southern Cross - an indispensable, well vented shelter for bug country, is also extremely lightweight and freestanding. Use just the canopy inside a hotel or outside beneath a tarp. Open or close the rainfly to increase ventilation and sun protection.

- a> Large door on both sides and two vestibules offer ample space for two. Plenty of room for gear and incredible ventilation for any climate!
- b> Doors operate with one hand and are wide enough for two adults to sit side by side.
- c> Ultra fine No-See-Um netting wards off the smallest of bugs. Nearly vertical walls minimize the possibility of nighttime contact with annoying stinging insects. Canopy side walls are pocketed all around forming a double barrier so even if touching the sidewalls, mosquitoes can't reach you.
- d> Rainfly's hoods offer adjustable venting and rain protection above the entrances. Roll the rainfly up on one or both sides for nighttime stargazing.
- e> Loops and pockets keep things organized.

# SOUTHERN CROSS

Light and airy 3 season tent.

#### > Freestanding

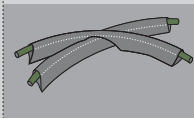

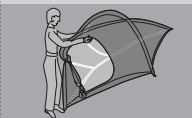

**Southern Cross** goes up without stakes and moves easily to any suitable spot. To clean, just lift overhead and shake out. The Rainfly can be attached and removed easily with quick release buckles.

#### > Continuous pole sleeves

on the canopy are sealed at one end ensure quick and easy setup. No need to walk around the tent to insert the poles.

#### > The tent performs equally well indoors

as a mosquito net on your bed in a cabin. Alternatively a tarp can be used for rain and sun protection offering stand up space.
